

Congressman
Bart Stupak

Michigan's First Congressional District

I want to know what you think

It is important to me as your congressman to hear your thoughts and ideas on the issues facing northern Michigan and our nation. Please tell me if you support or oppose each of these proposals before the U.S. Congress.

Please take a moment and fill out this survey, refold the questionnaire with my Washington address showing, add postage and mail it back to me. Thank you.

Question	Strongly support	Support	No position	Oppose	Strongly oppose
1. Should the federal government intervene to reduce the price of gasoline and oil?					
2. Do you favor U.S. Forest Service proposals for roadless areas and non-motorized use of roads in national forests?					
3. Should background checks be required at gun shows?					
4. Should federal tax cuts be postponed until the long-term solvency of Social Security and Medicare is ensured?					
5. Should the federal government act to prevent future bulk sales or diversions of Great Lakes water?					
6. Would you like to see a prescription drug benefit added to the Medicare program?					
7. Do you feel that reducing class size should be our primary goal in providing a quality education to the children of northern Michigan?					
8. Should taxpayers be allowed to provide for vouchers so children can have access to any school, including private and religious?					
9. Should the federal government pay off the \$5.6 trillion debt before enacting across-the-board tax cuts?					
10. Should the U. S. take all steps necessary to open trade with the People's Republic of China (mainland China)?					

outlined in this questionnaire is very important to me. Please fill out and return this survey.

Save the phone numbers in the box on the right. My staff and I are able to assist thousands of district residents each year on problems ranging from passports to missing military medals, from Social Security benefit problems to small business development grants.

Whether you are having a problem with a federal agency or simply want to comment on a matter you heard on last night's news broadcast, I want to hear from you!
